

T Complete 8' x 8' x 7' TAPPI Room from \$22,800 to \$29,000

*Price includes room,
conditioner and controls*

TAPPI Room

*Series 9310 or 9320 Conditioner
and Controls operate off 115 volt*

PGC's humidity generating systems are unique. The sources for humidity, dehumidification, heating, cooling, and circulation are all packaged in one self-contained unit. The conditioner is designed to produce very precise humidity and temperature control.

The conditioner is controlled by PGC's SmartPad, a user-friendly system that provides optimum accuracy and control. The SmartPad is equipped with direct readings in both temperature and humidity. It also features 60 segment programming for automatic cycling. Alarms and serial communications port (with software) are standard.

FEATURES

1. Precise temperature and humidity control
2. High grade temperature compensated humidity sensor
3. Stainless steel construction
4. High-low or deviation alarms
5. Compact Package

BENEFITS

1. Consistent and accurate results
2. Confidence in the measured condition
3. Durable
4. Security and safety
5. Easy to apply
